SUMMARY

From crafting frontend UIs to building backend logic, I enjoy creating applications end-to-end. I've been learning the MERN stack through hands-on projects and am now looking to take the next step in a collaborative team environment.

TECHNICAL SKILLS

- **Frontend Development:** React.js, Redux Toolkit, Tailwind CSS, JavaScript, HTML5, CSS3, Bootstrap
 - **Backend Development:** Node.js, Express.js, RESTful APIs, MongoDB, Mongoose, JWT
 - **Programming Languages:** Python, JavaScript
 - **Pega Platform:** Case Management, UI, Data Model, Decision Rules, Process Rules, Reporting Rules
 - **Tools:** VS Code, Chrome DevTools, GitHub, Vercel, MongoDB Atlas, Postman, Render
 - **Soft Skills:** Problem-Solving, Team Collaboration, Communication, Adaptability
-

EXPERIENCE

Virtusa Consulting Services | Intern

Jan 2023 – Apr 2023

- Built a Pega-based application to streamline the rescue and adoption of stray animals. Designed case workflows using System Architecture and Senior System Architecture features.
 - Enabled users to report distressed animals for rescue and allowed others to adopt rehabilitated pets through an integrated platform.
-

PROJECTS

Personal Portfolio Website | React.js, Redux Toolkit, React Router, Tailwind CSS

- Designed and developed a modern, responsive personal portfolio highlighting professional journey, projects, and experience.
- Includes light/dark mode toggle, smooth navigation, typing animations, expandable project details, downloadable resume, and a contact form integrated via Formspree. [Portfolio Link](#)

Netflix-Grok | React.js, Redux Toolkit, React Router, Tailwind CSS

- A Netflix-inspired React application with Firebase authentication for sign-in/sign-up, and TMDB API-powered movie browsing ("Now Playing," "Popular," "Top Rated," "Upcoming") displayed in scrollable lists.
- Integrates the Grok API for AI-driven movie recommendations via natural language queries, toggled from a sleek header interface, with results managed in Redux. [Netflix-Grok Link](#)

DevConnect – Developer Networking Platform | MERN stack

- Created a full-stack "Tinder-style" social networking app for developers. The responsive SPA (Single Page Application) frontend is built with React, Redux, and react-router-dom, styled using Tailwind CSS and DaisyUI.
 - Key features include secure JWT authentication, a dynamic discovery feed, profile and connection management. The backend uses Express.js, Mongoose, and MongoDB, with bcrypt for password hashing and a RESTful API for user and connection workflows. [DevConnect Link](#)
-

EDUCATION

B. Tech, Computer Science Engineering

2019 – 2023

Raghu Engineering College, Visakhapatnam | CGPA: 8.95

CERTIFICATIONS

- Namaste React.js - Completion Certificate
- Namaste Node.js - Completion Certificate
- How To CSS - Completion Certificate
- Pega Certified System Architect (PCSA)
- Pega Certified Senior System Architect (PCSSA)
