EXPERIENCE

Virtusa Consulting Services | Intern

Jan 2023 – Apr 2023

- Developed a Pega-based "Animal Rescue" application, automating 50% of manual workflows and reducing processing time by 25%.
- Enhanced system efficiency by 45% through optimized case management and secure user authentication.
- Collaborated with cross-functional teams to integrate automation solutions.

PROJECTS

Dine Dash - Swiggy Clone with Optimized Performance | React.js, Redux Toolkit, React Router, Tailwind CSS

- Built a Swiggy-inspired food ordering app using React.js & Tailwind CSS, integrating Swiggy's live API for restaurant listings, dynamic menus, search & filtering, and real-time network status detection.
- Utilizes Redux Toolkit for efficiently adding, removing, and clearing cart items.
- Implemented React Router, custom hooks for optimized API calls, and lazy loading for improved performance.
- Designed a seamless UI with Shimmer effects for a smooth user experience.

Netflix-Grok | React.js, Redux Toolkit, React Router, Tailwind CSS

- A React-based Netflix clone with Firebase authentication for sign-in/sign-up, and TMDB API-powered movie browsing ("Now Playing," "Popular," "Top Rated," "Upcoming") displayed in scrollable lists.
- Integrates the Grok API for AI-driven movie recommendations via natural language queries, toggled from a sleek header interface, with results managed in Redux.
- Built with Redux Toolkit, React Router, and Tailwind CSS, featuring a responsive design, shimmer loading effects, and a featured movie section with trailers.

Web Vortex – Interactive Portfolio Website | HTML, CSS, JavaScript, Bootstrap

- Developed a visually engaging and interactive personal portfolio website to showcase projects, skills, and experience.
- Implemented smooth navigation with JavaScript scroll effects, an animated navbar, and a responsive layout for optimal user experience. Integrated Bootstrap Icons and modern UI design principles to enhance aesthetics.
